

Indraprastha Apollo Hospital

Overview

Indraprastha Apollo Hospital is a flagship hospital of India's foremost healthcare groups, the Apollo Group. It is highly renowned multi-speciality facility that offer tertiary and quaternary care services to domestic and international patients.

The 695 bedded hospital is outfitted with the most modern technology for diagnostics as well as therapeutic purposes. A team of highly trained medical professionals work under all the 52 specialities at the hospital. They along with the nursing and administrative staff ensure world-class medical care is delivered to all the patients.

Indraprastha Apollo is an accredited hospital with international standard quality services for patient care and safety norms. The hospital uses its own system, called The Apollo Standards of Clinical Care (TASCC), to maintain top standards for all kinds of treatment and procedures.

The Apollo Organ Transplant Program is one of the most successful programs in the country that has performed over 1627 transplants (410 Liver and 1210 Kidney), including 979 transplants (289 Liver and 690 Kidney) performed at the Transplant Program in Delhi. It is the first Hospital in India to perform a Paediatric Liver Transplant in 1998. They have successfully performed various kinds of liver transplant for different kinds of liver conditions.

Indraprastha Apollo Hospital has some world-reputed surgeons and specialists who are the pioneers of their specialities, especially in Cardiology and Neurology. They are fully committed in providing a comprehensive and holistic medical care to their patients.

The hospital has won many national and international accolades, and continues to be one of the top healthcare service providers in India.

It is the first Hospital in India to get international accreditation by Joint Commission International (JCI) consecutively for the fourth time.
